Order form for Flextight Original holders.

Company name:

Your reference no.:

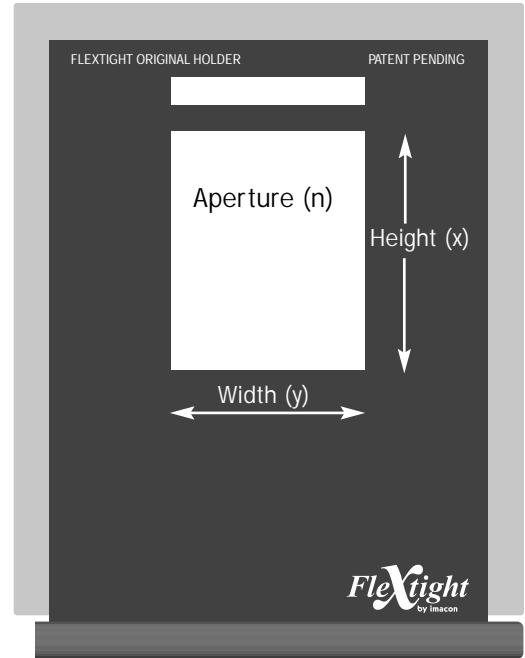

Flextight Original Holder item no.:

_____ pcs. _____ - _____ pcs. _____

_____ pcs. _____ - _____ pcs. _____

_____ pcs. _____ - _____ pcs. _____

_____ pcs. _____ - _____ pcs. _____

Description of the Custom Sized Holder:

Flextight Photo only

Aperture Width (y)
(max. width 60 mm)

Quantity of holders:

<input type="text"/>	x	<input type="text"/>	+	(n - 1) x 8 mm	=	<input type="text"/>
No. of apertures,(n)		Individual aperture height (x) (in mm)		Spacing between apertures (No. of apertures - one x 8 mm)		Resulting length (max. length 180 mm)

Flextight Precision only

Aperture Width (y)
(Recommended max. 94 mm)

Quantity of holders:

<input type="text"/>	x	<input type="text"/>	+	(n - 1) x 8 mm	=	<input type="text"/>
No. of apertures,(n)		Individual aperture height (x) (in mm)		Spacing between apertures (No. of apertures - one x 8 mm)		Resulting length (max. length 228 mm)

Flextight Progression only

Aperture Width (y)
(max. width 94 mm)

Quantity of holders:

<input type="text"/>	x	<input type="text"/>	+	(n - 1) x 8 mm	=	<input type="text"/>
No. of apertures,(n)		Individual aperture height (x) (in mm)		Spacing between apertures (No. of apertures - one x 8 mm)		Resulting length (max. length 200 mm)

Important! To ensure sufficient hold on the original, you must define the size of the aperture to be at least 2 mm less than the original, in length and width.
All apertures **must** have the same size and orientation.
