Bidouille

The image shows a close-up of the upper part of a surveying instrument, likely a theodolite or level. A black vertical column is the central focus. At the top, there is a complex assembly of black metal parts, including a circular scale with markings for 320, 340, 0, 20, 40, and 60. A red arrow points from the text to a specific part of the assembly. Two blue arrows indicate the vertical movement of the column. The base of the column is labeled 'Hub'.
