NEW STUDENTS IN POINTAPLUME !

This years students arrive today in the famous school of magic, based in Bristol. This school was created in 1560 by 4 amazing witches and wizards: Moonhowler, Wildshadow, Suncaller and Flametail. They are now the name of the 4 Houses where the children will be sorted. The Headmaster, Osuniev Ogden, is quite proud to be assisted by a brilliant team of teachers in order to share magical wonders and knowledge. He wrote back by owl that he is "more than happy to be back in Bristol" and that "this year will be full of amazing astonishments for the children".

What a thrilling year to come!
