- CATALOGUE 2018 -

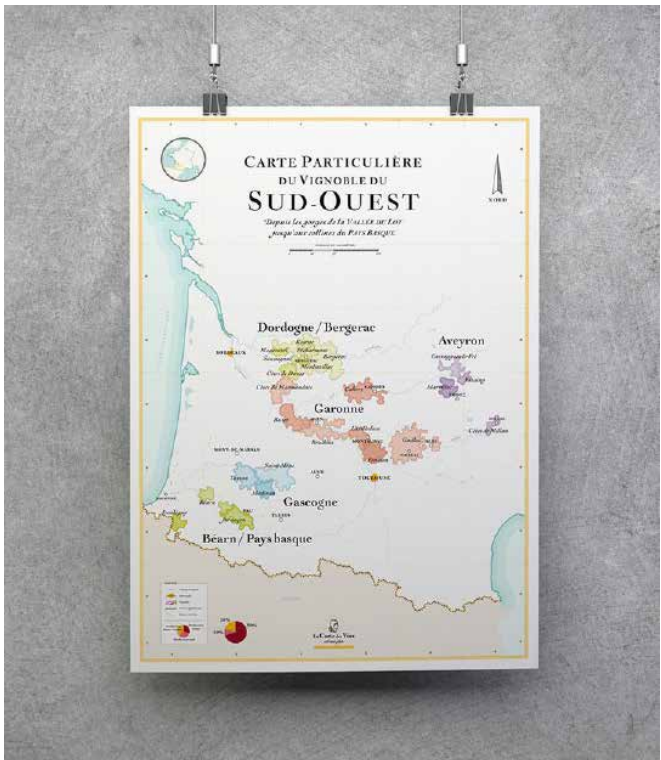

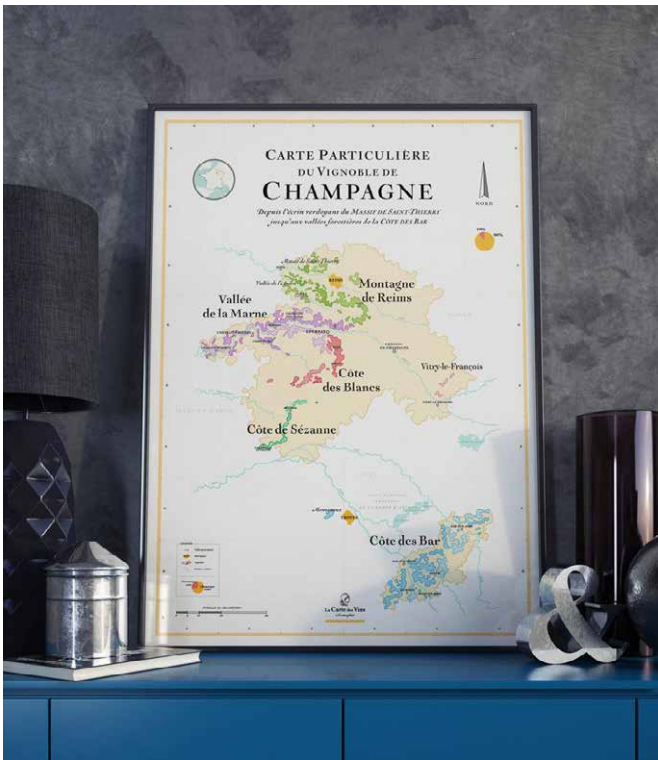

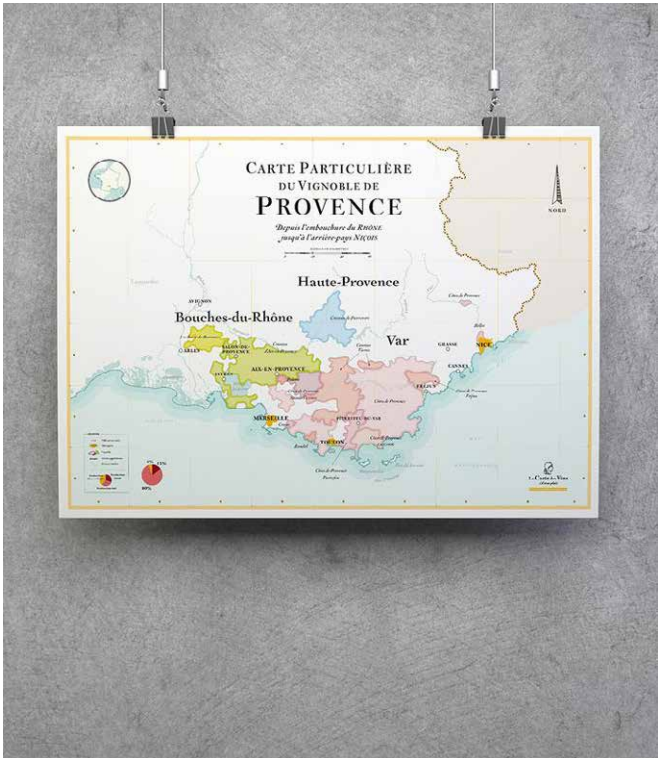

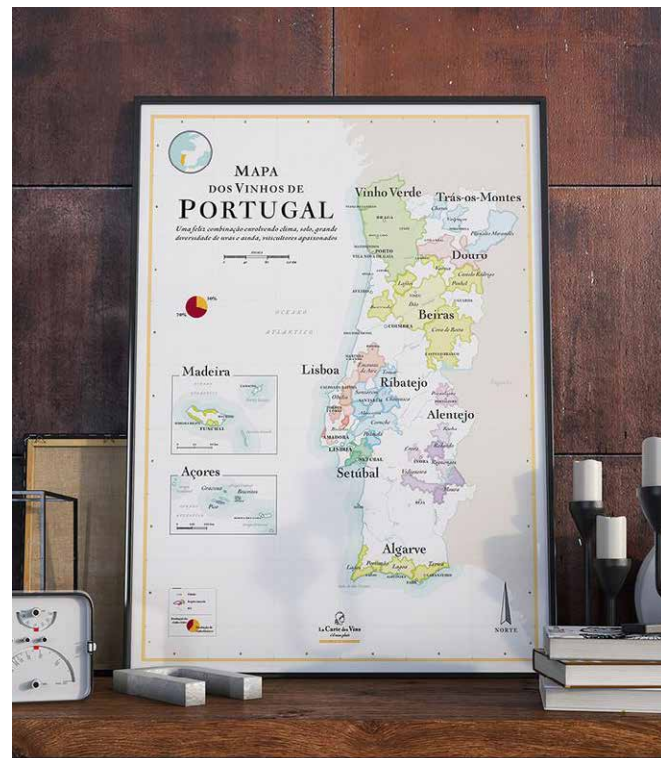

In 2014, when Jules Gaubert-Turpin and Adrien Grant Smith Bianchi got interested in oenology, they noticed a lack of up-to-date and visual guides. The duo embarked on creating a new way of approaching wine and its terroirs through a collection of guides and posters about wine-growing regions. Each map has been created relying on INAO and inter-branch organisation data for each region. The maps are all printed in South West of France, in Mérignac, just near Bordeaux.

- OUR WINE MAPS -

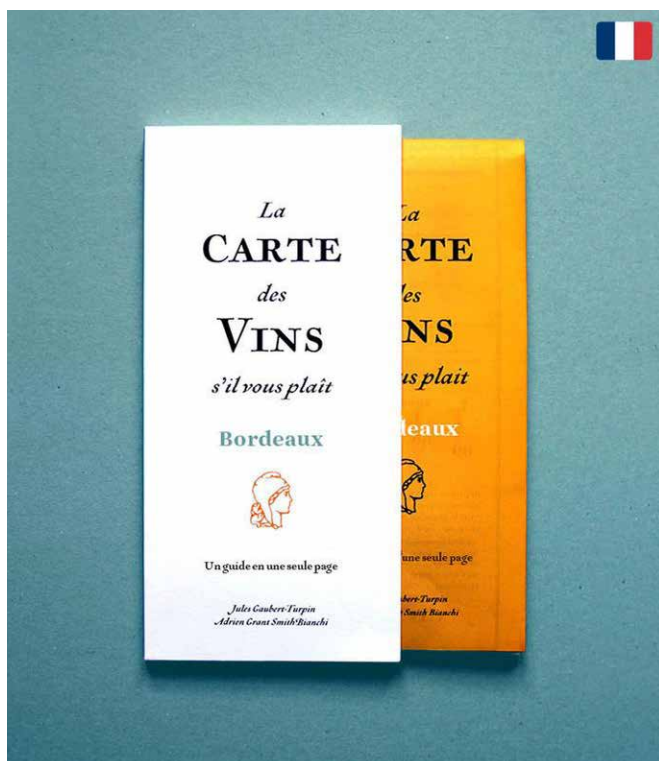

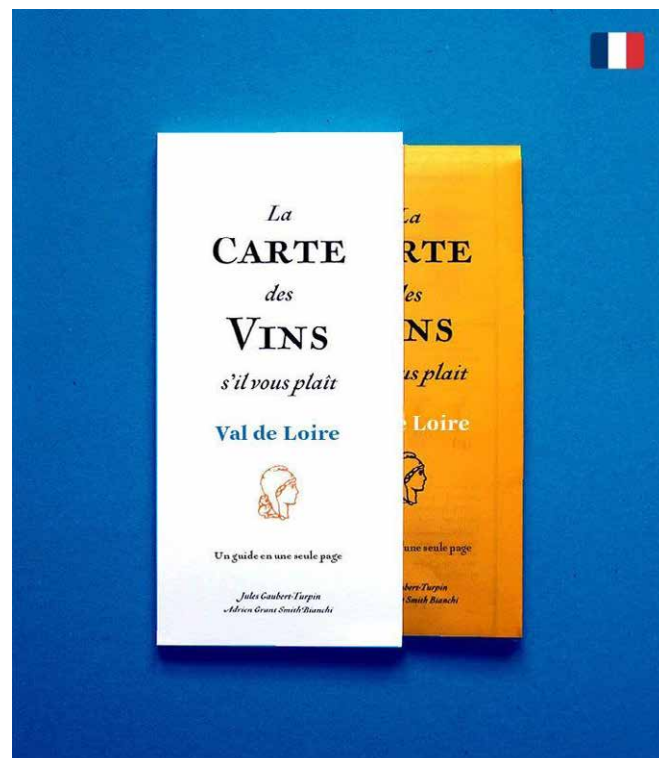

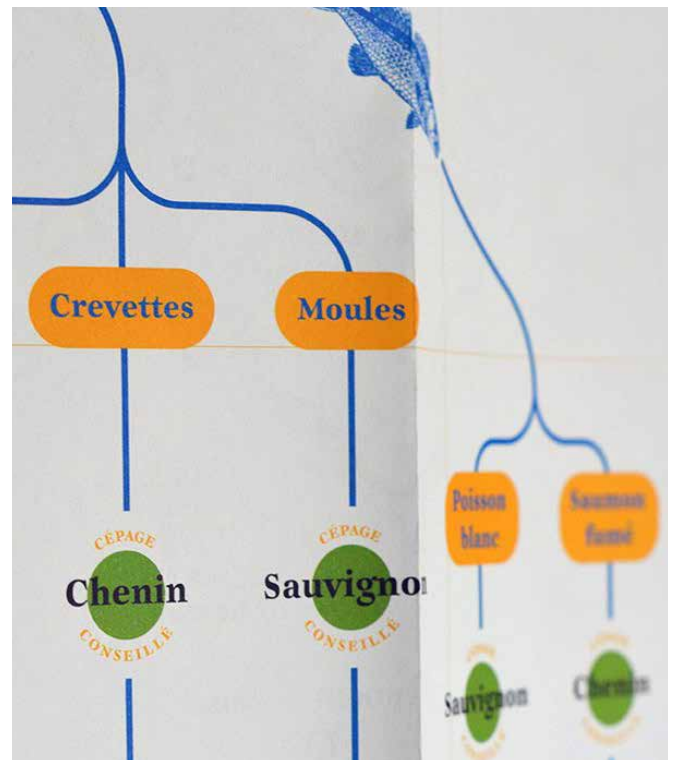

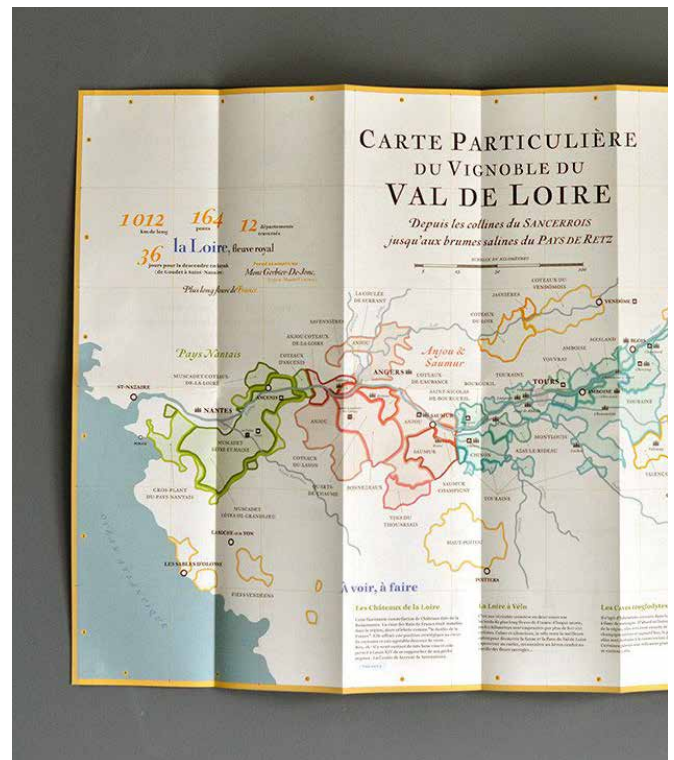

- OUR GUIDES -

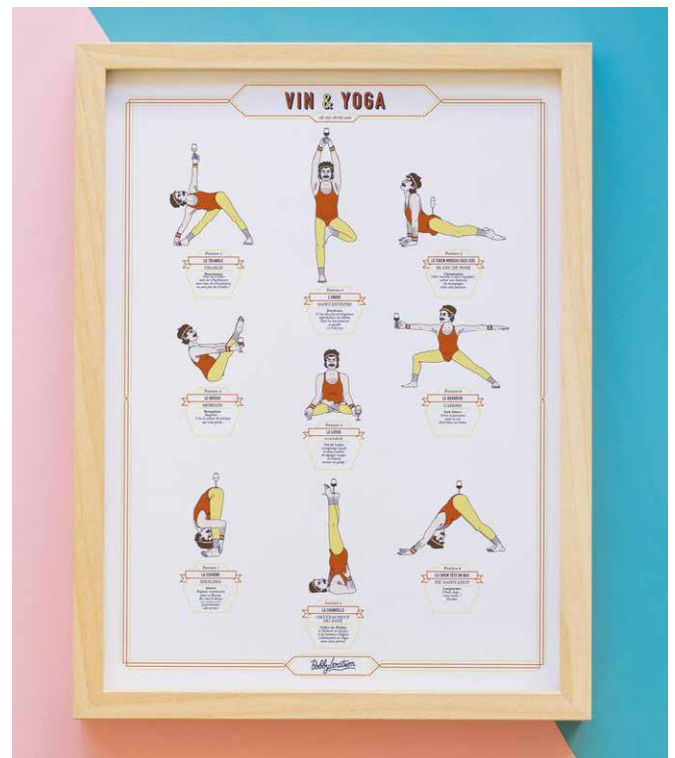

Our guides come in the form of road maps, folded in a cardboard sheath.

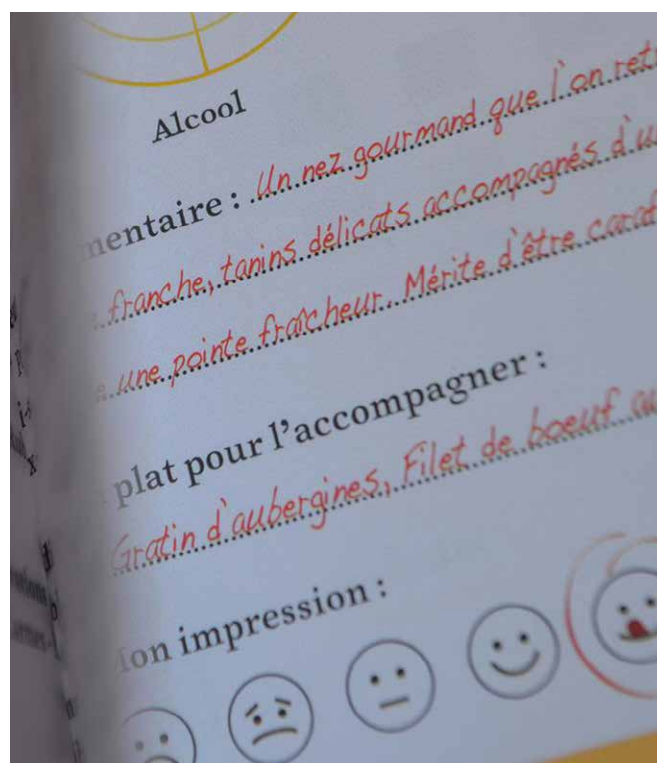

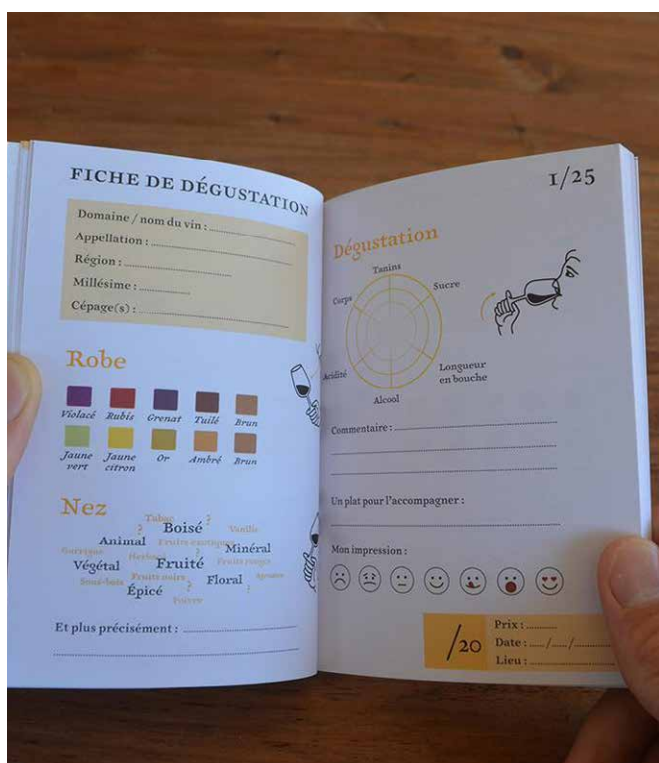

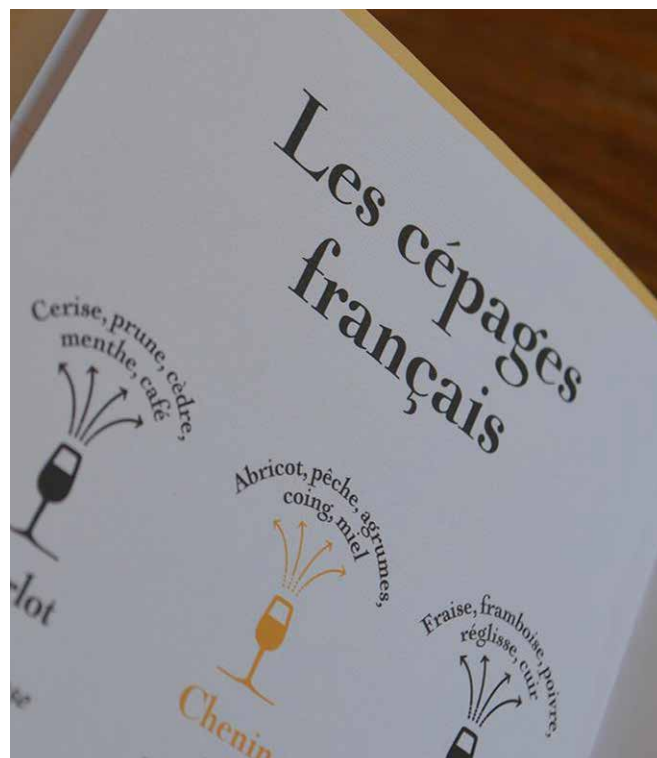

Front Side : Map of the wine region and its appellations

Reverse Side : infographics, data and definitions to better understand the region
