

La connexion n'est pas sécurisée

Les propriétaires de zimbra.aliceadsl.fr ont mal configuré leur site web. Pour éviter que vos données ne soient dérobées, Firefox ne s'est pas connecté à ce site web.

Les sites web justifient leur identité avec des certificats émis par des autorités de certification. La plupart des navigateurs ne font plus confiance aux certificats émis par GeoTrust, RapidSSL, Symantec, Thawte, et VeriSign. zimbra.aliceadsl.fr utilise un certificat émis par l'une de ces autorités ; par conséquent, l'identité du site ne peut être validée.

Vous pouvez informer l'administrateur du site web de ce problème.

Ce site a recours à HTTP Strict Transport Security (HSTS) pour indiquer à Firefox de n'établir qu'une connexion sécurisée. Ainsi il n'est pas possible d'ajouter d'exception pour ce certificat.

☐ Signaler les erreurs similaires pour aider Mozilla à identifier et bloquer les sites malveillants

Retour

Avancé

zimbra.aliceadsl.fr utilise un certificat de sécurité invalide.

Les certificats émis par GeoTrust, RapidSSL, Symantec, Thawte et VeriSign ne sont plus considérés comme sécurisés car ces autorités de certification ont, dans le passé, omis de respecter des pratiques de sécurité.

Code d'erreur : [MOZILLA_PKIX_ERROR_ADDITIONAL_POLICY_CONSTRAINT_FAILED](#)

Copier le texte dans le presse-papiers

<https://zimbra.aliceadsl.fr/>

Une contrainte de stratégie supplémentaire a échoué lors de la validation de ce certificat.

HTTP Strict Transport Security : true
HTTP Public Key Pinning : false

Chaîne de certificat :
