“Aramis is one of the few French firms capable of providing an end-to-end advice in all fields of life sciences”

Specialist expertise

IP: Patent expiry strategies, pan-European patent litigation, trademark strategies and market-cleaning in the field of pharmaceuticals

Regulatory: Regulatory affairs on drugs, medical devices, cells, food and cosmetics

Corporate: Full-range advice for biotech and medical devices, including restructuring & employment law input

Anti-trust: Antitrust and trade regulation, joint ventures, brand-generic competition restraints, price discrimination issues, distribution-related challenges

Privacy: We handle privacy data protection matters for medical data; we also act as outsourced privacy officer for several companies

Marketing: Advertising in a regulated framework, review of marketing materials, unfair competition

Commercial support: Know-how & IP licensing, global distribution agreements, manufacturing arrangements, scientific research funding arrangements, and wholesaler joint ventures and marketing arrangements.

Sector focus

Pharma companies
Biotechs
Consumer healthcare & cosmetics
Medical devices

Our network

We are independent. As such we are free to choose our correspondents and ensure the best match with our client's expectations. Independent & cross-border: we combine the best of two worlds.

Our clients

We act for several major pharma companies and medical devices manufacturers as local counsel in France. We also advise several cosmetics and biotech companies as lead counsel for their legal work abroad.
