At the night when the tent stood and moon shined they fall in a deep sleep. In the middle of the night came a terrible thunderstorm. And then heard two girls a creepy howl from a wolf. It was a very windy night and the tent flought away. They went trough the forest until they arrived at a huge pond. The girls stood under a tree and heired a rustle in a bush next to them. Lisa thought it is a wolf. It came out but it wasn`t a wolf it was a labradoodle dog who runs away from his home and ran in this horrible forest. The dog barked and growled and the girls ran away from him. They ran on a street and a LKW came up

of them. The LKW honked and the two girls saved themselves in the last second. The two went in the other side of the forest where they saw a giant wolf. Emma and Lisa ran away from the wolf but the wolf followed them and wanted ate them. Emma screamed “Run as fast as you can Lisa!”. The girls ran across the street to the big pond again and can` t ran more because there was a dead end and Lisa was bitten from the wolf. The wolf hunted them to the dead end and want to eat them. In this time the girls was very scared. But then the dog jumped out of the bush and chased the wolf away. The girls slept with the dog next to the massive bush. At the next morning the two girls went to a hospital and Emma hoped that Lisa gets well again. Lisa had to have a operation because she had a blood poisoning. In the operation made the surgeons a mistake and Lisa musted intensive care unit. The second operation was very hard for the surgeons but they did it.
