1991 in south dakota the cuddly cats gravenyard

Miao oh no missy clair starts to cry when she saw her dead cat on the street she cried so much.

After to month

Claire's parents were concerned because of Claire and her mystery problem. Claire's Cat died, this is what we all think, but Claire still seems to see the cat and think that it is real. Her mother called a therapist, Mrs. Berham. She came to the Charlton family the next day. Mrs. Charlton opened the door and Mrs. Berham stepped in. They sat down together in the kitchen to tell Mrs. Charlton committed about their problem. When Claire's cat died, she became more and more depressed and withdrew. Also, the strangest thing, her cat Missy is dead, but Claire still seems to believe that she is alive. She talks to her and every morning after she had refilled the food, it is empty. I had also seen cat hair on her blanket recently. She comes, hello mom, hello darling, that's
