## Charlie's family

Charlie Bucket is a poor boy who lives in an old crooked (penchée) house with his parents and grandparents in a poor neighborhood (quartier, environnement pauvre).  
His grandparents all sleep in the same bed. His mother can't afford (ne peut pas se permettre) to cook meat. She cooks cabbage soup almost every day.  
They are so poor that they wear winter clothes inside the house.  
Charlie's father works in a toothpaste factory.  
Charlie's grandfather used to work for Willy Wonka, he doesn't work there anymore.  
Charlie's dream is to meet Willy Wonka = he wishes he met Willy Wonka.
