

IMPORTANT (FR)	IMPORTANT (EN)	CONTACT
- La rareté (0,6 ou 12 points), notée "Rarity"	- Tier utility is deemed by a score, based on multiple criteria:	
- Le nombre de circuits favoris N, SI ou A (6 points par circuit), noté "T3 (N,R,I)"	- Rarity (0, 6 or 12 points)	Discord- https://discord.gg/2qETdLx
- Le nombre de circuits favoris SI/A (1 point par circuit), noté "T3 (RT)"	- Number of preferred N, R or I maps (6 points per map), named "T3 (N,R,I)"	
- Le nombre de circuits de ville favoris, qui ne sert qu'en cas d'égalité, noté "T3 Towns"	- Number of preferred RT maps (1 point per map), named "T3 (RT)"	Dernière maj : 13 janvier 2021
- La spécialité, dans le cas des pilotes et ailes, notée "Item" (entre 0 et 60 points de base)	- Number of preferred town maps, which only serve as tiebreaker, named "T3 Towns"	Last update : January 13th 2020
	- Driver or glider speciality (between 0 and 60 base points)	
Notes :	Notes:	
- "Driver", "Kart", "Glider" sont les mots anglais pour pilote, kart et aile. "Ranking" signifie classement	- Drivers, karts and gliders have a color depending on their score. This allow to build the tier list on TierMaker	
- Les pilotes, karts et ailes ont une couleur dépendante de leur score. Celle-ci permet de construire la tier list sur TierMaker	- New drivers, karts and gliders are very likely to rank up after some tours	
- Les nouveaux pilotes, karts et ailes sont susceptibles de monter rapidement dans le classement après quelques saisons	- Score calculation is slightly different between drivers, karts and gliders, as they don't affect the gameplay the same way	
- Les calculs sont légèrement différents entre les pilotes, karts et ailes, car ceux-ci n'affectent pas le jeu de la même façon	- A "N" map is the normal version of a track (for example, "3DS Mario Circuit")	
- Le bonus de point apporté par l'objet exclusif est dépendant du nombre de circuit favoris hors villes	- "RT" maps being on average 12 times less present on a tour, so they count 12 times less in score calculation	
- Un circuit "N" correspond à la version normale du circuit (par exemple, "3DS Circuit Mario")	- Town maps being exclusive to their tour, they only count as tiebreaker (for long-term usage)	
- Les circuits "SI/A" étant en moyenne 12 fois moins présents chaque saison, ils comptent donc 12 fois moins dans le calcul du score	- Kart speciality being too much map-dependant or random, they don't count in score calculation.	
- Les circuits de ville étant exclusifs à leur saison, ils ne comptent pas, sauf en cas d'égalité (pour l'usage à long terme)	- As a rarer Driver/Kart/Glider gives more points with the bonus-point boost, rarity adds a few points to the score	
- La spécialité des karts ayant une utilité dépendant de chaque circuit, elle n'est pas prise en compte dans le calcul	- Rarity and items bonuses are available in "Additional data"	
- Étant donné qu'un pilote/kart/aile plus rare donne plus de points avec le bonus de points, la rareté est légèrement prise en compte	- Classic and exclusive objects have different bonuses:	
- Les bonus de rareté et des objets sont donnés dans "Additional data"	Exclusive items are judged on their general utility, as single item and frenzy	
- Les objets classiques et exclusifs donnent des bonus différents.	Common items are judged on their general utility, and how much they affect the coin drop probability	
Le bonus d'un objet "Exclusif" dépend de son utilité générale, en objet simple comme en frénésie	- Gold Mario and the Gold Standard aren't rankable, as they're only available in "Coin Rush" mode	
Le bonus d'un objet "Commun" dépend de son utilité générale, et de s'il affecte la probabilité d'obtenir une pièce		
- Mario d'or et le kart "Or" ne sont pas classables, car ils ne sont disponibles que dans le mode "Ruée vers l'or"
