MODE D'EMPLOI DU TUYAU

① AM (AMÉRICAINE)

Classement général de base prenant en compte les performances du cheval, sa forme, ses derniers résultats, son entraînement, etc...

A RETENIR IMPÉRATIVEMENT DANS VOTRE PAPIER.

② + CHEVAL REPÈRE

Chevaux s'étant bien comporté la quinzaine précédente.

③ VALEUR CROISSANTE DES NUMÉROTATIONS

Minuscules - MAJUSCULES avec 1*, 2**, 3*** permettant d'établir un classement rapide supplémentaire, basé sur la note AM.

④ T (CONDITION OPTIMALE)

Chevaux en grande condition, devant participer une fois sur trois à l'arrivée de leurs prochaines sorties

⑤ ■ (TRÈS ATTENTION)

Meilleures conditions; récentes courses en progrès et entraînement très poussé. Attention si AM supérieure à 50.

⑥ X (A SURVEILLER)

La classe et une chance à chaque sortie; les dernières courses des deux mois précédents étant toutes d'un bon niveau.

Attention si AM supérieure à 50

⑦ ▼ (BASSE COTE)

Cheval coté à 4/1, au plus, à l'une de ses dernières sorties et semblant en condition pour participer à l'arrivée. Tenir compte de la date et des conditions de ses dernières courses car si le cheval change de catégorie, sa cote en subit des conséquences directes.

⑧ F (FORME SAISONNIÈRE)

Basée sur les résultats de la même période des 3 années précédentes, elle n'est pas à négliger car, certains chevaux ne sont à leur meilleure forme qu'à certaines périodes de l'année. A retenir dans tous les cas où la notation est supérieure à 50 et surtout à 70.

⑨ DC (DERNIÈRES COURSES)

Elle tient compte des résultats des courses des 6 derniers mois. Une indication sérieuse si la note est de 50 et plus.

⑩ GP (GAGNANTS - PLACÉS)

Nombre d'arrivées sur les 2 à 10 dernières courses courues sur 1 an au plus. Elle indique le pourcentage de chances qu'a le cheval d'être à l'arrivée. A prendre en compte surtout à 50 et plus.

⑪ P (VALEUR PARTICULIÈRE AU TROT)

Très attention avec AM, DC et GP. Fort pourcentage à l'arrivée. Possibilité de grosses cotes, car les provinciaux sont inclus.

⑫ ENT (ENTRAÎNEMENT)

Chevaux dont la préparation et l'entraînement laissent présager un engagement précis avec une possibilité de grosses cotes. Retenir la ou les plus fortes notes supérieures à 450.

⑬ (SUPER SÉLECTION) - valable sur la quinzaine en cours

Très attention car une fois sur deux à l'arrivée.

Nota: l'absence de certains chevaux dans ces pages résulte généralement d'une AM trop faible.

EXEMPLES DE PONDÉRATION

Classer les chevaux et leur attribuer des points selon leurs rangs.

- AM : le 1^{er} cheval sera crédité de 10 points, le 2^{ème} de 9 points, et ainsi de suite.... Il est également possible de garder la note AM telle quelle et d'y ajouter des points en fonction des autres critères.

- F, DC, GP, ENT: donner 5 points aux meilleures notes puis 4 pts,...

- SIGNES PARTICULIERS: 1 point à T ▼ ●, 2 points à X ■ +

- NUMÉROS PMU: Privilégier les petits numéros (1 à 7) pour le Galop et les gros numéros (13 à 20) pour le Trot.

Galop - les numéros de 1 à 5 : 3 points, 6 à 10 : 2 points, 11 à 15 : 1 point, au delà : 0 point

Trot - les numéros de 20 à 16 : 3 points, 15 à 11 : 2 points, 10 à 6: 1 point, autres:0 point

- MONTES: Ajouter 5 points au meilleur driver ou jockey, 4 points au suivant, etc..., selon le classement des montes publié dans LE TUYAU les 15 de chaque mois. Voir également le classement des montes qui paraît tous les mois dans le n° du 15.

- FAVORIS DE LA PRESSE: Inclure éventuellement un ou plusieurs chevaux choisis parmi les 5 premiers favoris de la Presse afin de tenir compte d'informations de dernière minute (performance récente, état du terrain, catégorie, corde,...). Pour intégrer les 10 premiers:

Les 2 premiers : 5 points, les 3 et 4^{èmes} : 4 points, les 5 et 6^{èmes} : 3 points, les 7 et 8^{èmes} : 2 points, les 9 et 10^{èmes} : 1 point

AUTRE METHODE

La Méthode D10

Objectif et principe: obtenir une nouvelle sélection de 10 chevaux classés par ordre décroissant de préférence, à partir de la liste du TUYAU et de celle de l'ensemble de la Presse.

Mixer les 2 sélections en attribuant 10 points aux premiers chevaux de chaque liste, 9 points aux deuxièmes, et ainsi de suite jusqu'aux dixièmes (1pt). Reclasser ensuite les chevaux en fonction de leurs nouvelles notes pour obtenir la sélection D10.

En cas d'égalité de notes, il est recommandé de classer les chevaux par ordre croissant de n° PMU pour le galop ou décroissant pour le trot. Vous pouvez également départager les ex-aequo en fonction des autres critères (F, GP,...).

| Px Pommerai | 10pt | 9pts | 8pts | 7pts | 6pts | 5pts | 4pts | 3pts | 2pts | 1pt |
|-------------|------|------|------|------|------|------|------|------|------|-----|
| TUYAU AM | ✓ | 8 | 9 | 10 | ✓ | 17 | ✓ | 11 | 16 | 18 |
| PRESSE | ✓ | 7 | 2 | ✓ | 14 | 7 | 6 | 8 | 15 | 16 |

Par exemple, aucune des 2 sélections ne donnait ce tiercé (arrivée 14-10-9-4-7) mais grâce à la méthode D10, la sélection devient:

1 - 4 - 5 - 8 - 2 = 9 - 10 - 14 - 7 = 17

Le n°1 reçoit 10 points pour sa 1^{ère} place dans la sélection TUYAU et 7 points pour sa 4^{ème} place dans la sélection Presse. Ensuite, totaliser les points du 1^{er} Presse, si celui-ci n'a pas encore été rayé (dans le cas contraire, prendre le 2^{ème} du TUYAU).

Le n°4 obtient 16 points, 10 points Presse (1^{er}) et 6 points pour sa 5^{ème} place TUYAU, n°8 = 12 pts, n°5 = 13 pts, n°9 = 8 pts, n°2 = 8 pts, n°10 = 7 pts, n°14 = 6 pts, n°17 = 5 pts, n°7 = 5 pts, etc...Un cheval non cité dans une liste n'obtient pas de point pour celle-ci (exemple : le n°9 a 8 points TUYAU et 0 point Presse)

Ainsi, la méthode D10 donne le tiercé en 8 chevaux (+96 €), le **quarté en 8 chevaux (+225 €)** et le **quinté en 9 chevaux (+385 €)**.

Le premier cheval de cette sélection arrive une fois sur deux, gagne 1 fois sur 4. Ce cheval est donc à retenir dans les jeux simples ou comme base pour les champs en couplés ou tiercés...

SELECTION TUYAU

VALABLE DU 15. 11. 2021 AU 30. 11. 2021

Ces chevaux sélectionnés pour leur préparation, leur condition, leurs périodes de forme, l'avis des professionnels, etc...sont prêts à participer à l'arrivée de leurs prochaines courses.

Maisons-Laffitte veut acheter son hippodrome

C Jacques Myard maire de Maisons-Laffitte, veut acheter l'hippodrome mansonien, fermé en 2020 aux galopeurs, pour 7,5 millions d'euros à la société France galop. Cet achat devrait « permettre d'assurer la maîtrise foncière et de réaliser dans les tribunes les activités qui permettront la reprise des courses », assure Jacques Myard, le maire.

Reste un gros chantier : le désamiantage qui reste « une condition nécessaire pour ensuite lancer un appel à candidatures des investisseurs qui se montrent déjà très intéressés par le site », précise le premier édile de la ville. Cet achat "est la première étape permettant la relance des courses à Maisons-Laffitte avec la Société des courses hippiques de

Maisons-Laffitte". Les parieurs-turfistes se réjouissent déjà de pouvoir fouler de nouveau les champs du célèbre hippodrome. Mais rien n'est moins sûr. Car du côté de l'opposition municipale, Charles Givadinovitch, affirme qu'il s'agit « d'un effet d'annonce de la part de Jacques Myard et non un rachat ». "Il a été voté simplement la possibilité pour le maire de proposer à France Galop ce prix là.

En 20 ans, le maire n'a pas fait comme c'est le cas à Pau et à Bordeaux dynamiser économiquement la zone. Il n'a pas créé un éco système autour de l'hippodrome pour le nourrir financièrement", poursuit le

conseiller municipal mansonien. De son côté, la société France Galop propriétaire a déclaré avoir pris acte de la délibération du Conseil municipal. L'espoir est permis.

CLASSEMENT DES MONTES

Compte tenu de sa périodicité, "LE TUYAU" tient compte partiellement de la monte. Un cheval monté régulièrement par le même jockey a une "Américaine" qui intègre ce critère. Mais, dans le cas contraire, il est possible de pondérer l'AM en tenant compte des points attribués aux jockeys

ou aux drivers sur la liste ci-dessous. Par exemple, il suffit de classer les jockeys et les drivers d'une course donnée en fonction de ces notes, puis d'attribuer des points selon le rang (5 points au premier, 4 points au deuxième, ...etc, et 0 point au delà du cinquième). A noter que l'Américaine tient compte de

l'incidence de l'entraîneur sur les résultats; au moment de la parution, le nom de l'entraîneur est généralement connu, ce qui n'est pas forcément le cas du jockey. Le nombre indique la valeur attribuée à chaque jockey ou driver de la liste, en fonction des derniers résultats obtenus sur la saison.
