Clinical Comment:

Your sample result has been analysed and shows that coronavirus SARS-CoV-2, the virus that causes COVID-19, was NOT DETECTED for the presence of the virus. The result of your PCR swab test was made available by a trained health professional after analysis using a high performance RT-PCR (Reverse Transcription-Polymerase Chain Reaction) system registered and CE approved for use in the European Union.

Patient Symptoms - Upon systemic enquiry, the patient:

- a) has not experienced or declared any recent symptoms associated with COVID-19 including fever, cough, shortness of breath, muscle pain, headache, sore throat, loss of taste or smell;
- b) has had no recent close contact with another person known to have COVID-19;
- c) has not been contacted by NHS Test and Trace for the purposes of self-isolation in relation to COVID-19. I can confirm that based upon the test result and information provided, the patient named above is declared as FIT to fly.
