At PornNodes there are no headaches. No matter what size you are, you are welcome. We are a big family. Well, let's not go too far...

Let's start with how to become a WL.

It is very simple. No unnecessary crazy missions like on other projects. You just have to send us a nude with your nickname. The first 30 we receive will get a WL and an exclusive gift

Is it included?

SELL TAX :

Why such a high sales tax on the first day?

Because we don't like robots. So why bother with them?

Here is the tax distribution.

You can see that it decreases and then disappears completely.

- 25% sales tax the first day
- 15% sales tax the second day
- 10% sales tax on the third day
- 7.5% sales tax on the fourth day
- 5% permanent until we remove it about 2 weeks after launch

CLAIM TAX :

You thought you were in a free country? No, here we love taxes.

Don't think they are there to hurt you... No! They are put in place to avoid too much selling pressure and therefore they are also meant to encourage the creation of nodes. The % of tax can vary depending on the node you own, it's up to you to create the best strategy.

Taxes ranges from 10% to 20% maximum

Our goal is not only to get your panties wet, we also want something that lasts. To make it simple, we will reduce the % yields afterwards to avoid too much selling pressure.

Yes, but when will you tell me?

There is no exact date. It will depend on the selling pressure, but we will reduce the rewards between 2 and 4 weeks after the launch.

Which promises an explosive launch

Captain, is there a WL?

Porn Nodes 🍑
@PornNodes

...

Important question before the release of our [#PornPaper](#).
Please vote:

- 🍑 30 to 40WL maximum: to take advantage of the presale.
- 🍑🍑 No WL: to have fair launch and we add liquidity.

Make your choice 🗳️

After the community's vote, we decided to not make a pre-sale and therefore there won't be a WL for people to buy the token in advance. However, the project's WL will get a NODE but will not have access to the token.

To be fair for all.

This is what all P2E games or nodes look like :

This is what we want to prevent.

This solution isn't viable. It attracts many people but will simply sink. Nobody wants that.

So we have been looking for the best compromise to combine attractiveness and longevity of the project. Hence the importance of taxes at the beginning. But that's not all.

During the first week we will ensure a high enough % on the Nodes to keep it very interesting. Afterwards we will manage the % of the Nodes to make them robust and regular income Nodes.

We are also working on other mechanisms quite..interesting

We stop you right away. Even in our wildest dreams this curve is not possible, even if it is the one we all prefer. But...

This is typically the graphic we are looking for at PornNodes. As we have already covered, several solutions will be implemented. We will also look at the BURN of a part of the supply, the buyback, the changes in the yield. Everything is done here to get closer to perfection.

Don't be fooled, this is where you will be able to climb to heaven.

Let's get the condoms ready, it's going to be a blast
